SCHOOL

Photo/Video Galleries

Evergreen Park Community High School, located in Evergreen Park, Illinois, came in contact with Americaneagle.com in 2006 for the redevelopment of their school site. In an effort to make accessing information quick and easy, Americaneagle.com created target audience sections within the new navigation system that allows students, staff, parents, and community members to easily access key areas of the site.

The site now also features a calendar of events, photo/video galleries, a forms center, roster system for athletics, alumni directory, and much more. In addition, a dynamic Content Management System empowers designated staff to immediately make any desired changes to the site in real-time.
