ASSOCIATION

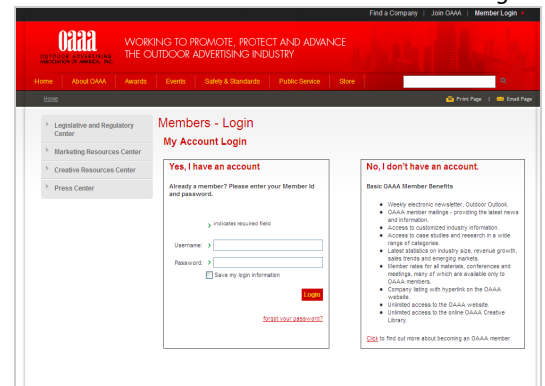

The Outdoor Advertising Association of America (OAAA), founded in 1891, is dedicated to promoting, protecting, and advancing outdoor advertisement interests. OAAA first came in contact with Americaneagle.com in 2003 in an effort to create a marketing site for their organization.

Over the years, Americaneagle.com has worked with OAAA to upgrade their site with e-commerce enhancements, an advanced e-mail system, integration with various association management systems and software, and much more. Recently re-launched, the new OAAA.org is expected to help visitors and members locate information and improve overall operations.
