Adlai E. Stevenson High School is a state of the art education facility that is consistently ranked as one of the best high schools in the state of Illinois and the United States. The redesign of the Web site needed to reflect this level of academic excellence. To accomplish this goal, Americaneagle.com created a professionally designed Web presence that would not only be visually appealing, but would also showcase all relevant school information in a user-friendly manner. An intuitive navigation system was created to enable all site visitors to locate information quickly and easily.

Furthermore, Americaneagle.com helped reduce overhead costs for Stevenson by creating an e-Minuteman email alert system. This system provides all news and information about Stevenson, eliminating the need for the school's published magazine.
