Township High School District 214, recently turned to Americaneagle.com for the full redevelopment of their district site as well as nine individual school sites. The sites feature leading online technologies that improve the way users interact online and communicate about school news, events, and more.

Since the site has launched, the district site has already been identified as a winner in the sixth annual Digital School Districts Survey, as announced by e.Republic's Center for Digital Education, the National School Boards Association, and Coverage Online magazine. The survey recognizes school districts and school boards across the nation whose use of digital technology in interfacing with students, parents and community, district governing, and bettering of operations has proven exceptional.
